Dear Resident/Occupier,

**ADVANCE NOTICE of Proposed Construction - Golborne Road, W10**

I write to confirm details of the construction programme starting on 12 September 2016 in Golborne Road. A copy of the improvement plans can be found on the Council website. I have attached a plan showing the proposed sequence in which we propose the scheme will be implemented. The first phase A1 will start at the South East corner of Golborne Road j/w St Ervans Road. A second team will also start in Swinbrook Road on 12 September. Parking for the traders and retailers that use Swinbrook Road will be made available elsewhere until this area is complete.

The construction works will be undertaken between 0800 and 1800 hrs Monday to Saturday but this may vary dependent on work activities. In order to complete the work as quickly as possible, quieter activities such as laying paving may be carried out on Sundays. Please check for local parking restrictions as parking bays may be suspended in order to allow the work to take place safely. These restrictions could change over the course of the work, so please check notices before 8.30am.

Due to the nature of the work, there will be some noise and disruption, but we will try to keep this to an absolute minimum. However, please accept our apologies in advance for any inconvenience caused.

The Council has appointed a Liaison Officer, Helen McConnell, to act as a single point of contact for residents, retailers and traders whilst the works are underway. Helen will be available during normal working hours Monday to Friday and her contact details are as follows; [Helen.McConnell@fmconway.co.uk](mailto:Helen.McConnell@fmconway.co.uk) 0208 636 8822 or 07917 518 529.

Yours faithfully

A handwritten signature in blue ink, appearing to read 'Gary Noble'.
