

## Neighbourhood Community Infrastructure Levy – Community Priorities Poll Feedback

### CONSULTATION SCHEDULE AND COUNCIL RESPONSE, APRIL 2020

Please note that poll feedback has been recorded as received from respondents.

Question: To best reflect your priorities, please tell us where in the borough you live.		
Ward	Poll Feedback	Council Response
Abingdon	air quality improvement and good quality cycling facilities should be a priority.	Thank you for your comment, these fall within the suggested priorities air quality, and transport and highways. The Council will be inviting specific projects for NCIL funding later this year.
Abingdon	No feedback	N/a
Abingdon	S	N/a
Abingdon	My priorities would be to rejuvenate the High Street, keep bicycles like Lime bikes off the footpath even when parked and to keep traffic off the side streets and on the main arteries through the borough.	Thank you for your comments, these fall within the suggested priorities. The Council will be inviting specific projects for NCIL funding later this year.
Abingdon	renting in W8	Location noted.
Abingdon	Don't cut down Any trees. Take cars off road sometimes as they do in other cities but don't slow traffic to one lane leaving bike lanes open all day empty. Operate bike lanes in one direction in rush hour morning and reverse in evening. Slowing traffic makes pollution worse. Change car and bike lanes in park to how they were - the new system is terrifying for pedestrians especially with dogs and children. You have to get across cars going in both directions with no central stopping place and then same again with bikes. Bikes go at out of control speeds in park	Thank you for your comment, these fall within the suggested priorities transport and highways, streetscape and biodiversity. The Council will be inviting specific projects for NCIL funding later this year.
Brent	No further feedback	N/a

Ward	Poll Feedback	Council Response
Brent	<p>we need cleaner streets, better rods, more waste cleaning. Less houses being built.</p> <p>We are already over populated and have too many people who are unemployed.</p> <p>Too many illegal builds being late out, houses over populated</p> <p>Joint up communications between councils to ensure people are only registered with one council for housing and befits</p>	<p>We note that you live outside of the borough. This consultation relates to Royal Borough of Kensington and Chelsea, please contact your Local Authority regarding NCIL expenditure in that borough.</p>
Brompton and Hans Town	<p>This is not a very user friendly survey - and it allows those participating to select everything - it would be better to encourage prioritisation</p>	<p>The Council recognises that some respondents will have more than one priority for their ward. The selections for each ward will be analysed to identify the top priorities in each area.</p>
Brompton and Hans Town	<p>Pont street</p>	<p>Location noted.</p>
Brompton and Hans Town	<p>We have a lot of culture/cultural events as it is, thank to the three Museums, etc. Why would anyone what the meagre resources to be spent on more of the same? What we need is more safety, more policing.</p>	<p>Thank you for your comment, these fall within the suggested priorities community safety, policing and emergency services. The Council is pursuing improvements on Exhibition Road that are designed to make the street safer. The Council will be inviting specific projects for NCIL funding later this year.</p>
Brompton and Hans Town	<p>We need more trees and police on Exhibition Road and no festivals.</p>	<p>Thank you for your comments, trees and police fall within the suggested priorities. The Council is pursuing improvements on Exhibition Road that are designed to make the street safer. The Council will be inviting specific projects for NCIL funding later this year.</p>

Ward	Poll Feedback	Council Response
Brompton and Hans Town	I would prefer for all to receive finance!	The approach to top slicing ensures that every ward benefits from NCIL funds, including those areas where CIL liable development has not taken place.

Brompton and Hans Town	Exhibition Road	Location noted.
Campden	Hillgate village. Jameson st	Location noted.
Campden	Cycle lanes urgently needed across the borough especially where there are no parks and there are major hubs eg schools, hospitals, tube and train stations, GPs, libraries.	Thank you for your comment, this falls within the suggested priority transport and highways. The Council will be inviting specific projects for NCIL funding later this year.
Campden	We need cycle lanes to make cycling through the Borough a safe and viable transport option. The air pollution in the Borough is unacceptably and dangerously high but the council has done nothing about introducing cycle lanes. Which I consider to be a failure by the council in its duty of care. The recent consultation process was quietly closed with no transparency around the findings. As a long time resident, this is unacceptable to me. If you want to do one good thing, introduce cycle lanes so residents can safely ride through the Borough.	Thank you for your comment, this falls within the suggested priority transport and highways. The Council will be inviting specific projects for NCIL funding later this year. The results of this consultation will be published on the Council's website.
Campden	Support community organisations like Nova new opportunities and Midaye Somali Development Network who continue to fill the service gap for those in our community that need it most.	Thank you for your comment. The Council will be inviting specific projects for NCIL funding later this year. Community organisations can put forward projects as part of this.

	higher percentage of social housing, much less 'affordable' housing.	been a consultation on the Council's Draft Affordable Housing SPD, the consultation sought views on the term "Affordable".
Colville	The term 'affordable housing' is meaningless. Social/council housing for families is needed in North Kensington. Too much is being demolished and being replaced with housing for private sale or commercial rent, both of which are way out of reach for those who need housing the most.	Thank you for your comment, there has been a consultation on the Council's Draft Affordable Housing SPD, the consultation sought views on the term "Affordable".
Colville	Please do something about dog poo on the streets.	Thank you for your comment. This falls within the suggested priority waste. The Council will be inviting specific projects for NCIL funding later this year. Your comment will be forwarded to the Councils waste team.
Colville	Ledbury road	Location noted.
Colville	Fabulous area and doing a great job but the Colville Square area could do with a clean up in regards to graffiti.	Thank you for your comment, this falls within the suggested priority streetscape. The Council will be inviting specific projects for NCIL funding later this year.
Colville	Affordable housing for local residents. Not luxury apartments	Thank you for your comment, these fall within the suggested priority affordable housing. The Council will be inviting specific projects for NCIL funding later this year.
Colville	Please look at our terrible air quality in North Kensington, including Westway. Also please start to engage effectively with us re contamination and toxicity from Grenfell. Thank you. Colville	North Kensington. The borough would benefit from continued, more and better community infrastructure and amenities for all age groups.	Thank you for your comments, these fall within the suggested priorities community facilities, sports and leisure, health, cultural facilities, employment

Ward	Poll Feedback	Council Response
	<p>As much should be free.            People and families of all ages work hard for little money, often only the bare essentials can be covered - therefore free and affordable support and recreation would be beneficial to local communities.            E.g. youth clubs/training/activities;            health/fitness/wellness opportunities for all; arts &amp; culture leisure activities; employment training resources for all</p>	<p>and skills. Colville	<p>Colville            We do need more policing and security.            Also more green areas like the one where Grenfell happened. Green spaces well kept and beautiful to visit.            A botanical garden for example.            We do need cleaner streets and better food market in Portobello road. Conditions there are really poor with no facilities, dangerous pavement and dirty stalls.</p>	<p>Thank you for your comment, this falls within the suggested priorities policing and emergency services, parks and open spaces, waste, community facilities and streetscape. Courtfield	<p>Please improve accessibility in public transport including tube</p> <p>Please improve garbage storage and collection as the streets are often filled with bags on the wrong days and our homes are overflowing between collection.</p>	<p>Thank you for your comment, these fall within the suggested priorities transport and highways and waste. The Council will be inviting specific projects for NCIL funding later this year. Your comments will also be forwarded to the Council's waste team.</p>
Courtfield	<p>Stanhope Gardens</p> <p>Key priorities for me are security and waste. We are surrounded by rats and mice. Bin system is not appropriate and not worthy of a developed country as can be seen with rodents and the rubbish on streets. Need better bin systems (airtight and closed automatically to avoid smell and access from rodents - ask companies to come up with innovative solutions and more adapted containers for instance and test the system in a few streets before spreading it), tracking people dropping their rubbish in streets and enforcing dissuasive fines (escalating with each offence), and more recycling (including for food - not just for houses - as there is a lot of waste) and giving guidance to residents in terms of circular economy.</p>	<p>Thank you for your comments, these fall within the suggested priorities community safety, policing and emergency services and waste. The Council will be inviting specific projects for NCIL funding later this year.</p>

Courtfield	<p>air quality, planting trees and clean tech (EV charging etc) should be the top priority, once the planet and climate is safe then we can fix other issues</p>	<p>Thank you for your comment, this falls within the suggested priority air quality, biodiversity, and transport and highways. The Council will be inviting specific projects for NCIL funding later this year.</p>
Courtfield	<p>This is a formal opportunity to put into the survey my view that a legitimate, and very good, use of NCIL would be the preservation of our heritage, including the maintenance of historic built assets. This was a recommendation of the Historic Built Assets Working Group of the former Public Realm Scrutiny Committee in 2019 and was adopted by full Council; it is therefore</p>	<p>Thank you for your comment. Earl's Court	I live in Earls Court but run a charity that supports families who have a disabled child/adult with learning disabilities. I am frankly shocked that in no area of this work is accessibility referred to. Not only is community safety an issue but other things to enable vulnerable residents to live their lives locally is vital. I would like to see some of this funding used to develop changing places across the borough these can be used not just by our families but elderly residents too. In fact accessibility should be a mandatory issue for all developers they make enough money! <a href="http://www.fulloffifekc.com">www.fulloffifekc.com</a>	Thank you for your comment, the topic of disability, vulnerability and accessibility can be encompassed within projects that fall within all the suggested priorities. Norland	Thanks	Comment noted.
Norland	Pollution is a concern especially as I work near the Westway. A safe cleaner greener walking and cycling area would be welcomed. Improved social housing conditions are a priority.	Thank you for your comment, this falls within the suggested priorities community safety, air quality, parks and open spaces, streetscape, transport and highways and waste. The Council will be inviting specific projects for NCIL funding later this year.
Norland	Bicycle roads, reduction of climate change gases from the council and residents, biodiversity in parks and gardens, car free days, encourage people not to have cars (financial incentives). Notting Dale	<p>North Kensington . It is very very apparent in our borough that North Kensington is the poor disrespected relation. Both physically and mentally. It goes from over primped south to basic get by north. Why has this not improved? Adult education is a farce here! Shame on you. Not at all civilised!!!</p>	<p>Thank you for your comment. Each ward in the borough has access to NCIL funds. Notting Dale	I think the most important issue is crime. The Council will be inviting specific projects for NCIL funding later this year.

Queen's Gate	The borough misses electrical vehicle charging infrastructure and also local schools and nurseries. In addition it has done a terrible jobs with allowing modern glass and expensive building to be built. the local spirit and architecture have been damaged b new construction, over construction and poor infrastructure in terms of local gardens, trees, brick buildings restored rather than destroyed. Prioritise keeping the spirit of the borough not some expensive foreign buers	Thank you for your comment, these fall within the suggested priorities transport and highways, and education. The use of NCIL funds is intended to address the demands of development on an area. The Council will be inviting specific projects for NCIL funding later this year.
Queen's Gate	Air quality - around primary schools and parks . And the air quality on routes families walk to schools.	Thank you for your comment, this falls within the suggested priority air quality. The Council will be inviting specific projects for NCIL funding later this year.
Queen's Gate	Your 'no idling' signs work well to curb air pollution but the signs are not on all streets and many hire vehicles and vans idle continually without being challenged. This is a simple fix for better air quality.	Thank you for your comment, these fall within the suggested priorities transport and highways, and air quality. The Council will be inviting specific projects for NCIL funding later this year.
Queen's Gate	I have lived in Emperor's Gate since 1970 and love the area. I found the questions rather strange in that ideally I would tick all four. Perhaps prioritising would have been more revealing?	The Council recognises that some respondents will have more than one priority for their ward. The selections for each ward will be analysed to identify the top priorities in each area.

Ward	Poll Feedback	Council Response
Queen's Gate	I am furious how useless the RBKC is in servicing the public to improve not only the condition of homes in the area, but the affordability. RBKC is horrid inept council, unskilled, that NEVER does anything to address complaints or issues. Totally useless and has learned nothing whatsoever from the Grenfell failures to which the councillors responsible, should be jailed. RBKC must penalize rouge landlords and do more to get things done to resolve complaints. They must make efforts to keep rents at market rates (even charities and hostels are deeply over-priced for absolutely no justification but pure illegal misuse of their charitable status).	Thank you for your comments, unfortunately rent rates is not within the scope of this consultation. Your comments will be forwarded to the housing team.
Redbridge	Council taxes are high in the borough but there appears to not be very regular street cleaning. Pavements in residential streets are hazards. Some beautiful residential streets and houses that need attention ( owners and/ or tenants should also be held more responsible). Earl's Court	I live in Warwick road a toxic area of the borough and the council seems to have no concern for the welfare of families living in Earl's Court. At NO point is housing for people with learning disabilities even considered yet our sons and daughters hVe lived their lives in this borough, an industry of assessors have been built up around them to evidence their needs but are completely ignored when they reach adulthood in terms of forward planning.	Thank you for your comment. This falls within the suggested priority affordable housing. The Council will be inviting specific projects for NCIL funding later this year.

Golborne	Better walkways for pedestrians. I don't want Kensington Gardens to become dangerous for training Off Lead Puppies. There aren't many off lead parks left to train dogs to recall. I find the cyclist drive fast on clearly signed posted Pedestrian Pathways and are very aggressive and rude if dogs get in the way	Thank you for your comment. This falls within the suggested priorities streetscape, and transport and highways. The Council will be inviting specific projects for NCIL funding later this year.
Golborne	I would like you to make the borough more friendly towards people, pedestrianising roads and diminishing the number of roads cars are allowed in. You can learn from very successful boroughs such as Waltham Forest. I would like you to provide adequate funding to the emergency services and to promote education related to climate change and how to mitigate the effects. I would also want the local government to create a citizens assembly to give local people the power to decide on actions related to mitigate climate change.	Thank you for your comment, this falls within the suggested priorities streetscape, transport and highways, policing and emergency services and education. St Helen's	<p>I don't own a car. It would be more relevant to focus on public transport connections, for people who can not afford a car or don't feel like it is necessary. Also, I believe that car transport within London should not be encouraged, as there are sever air quality issues, which notably damage health. Most sidewalks seem to be working very well, but bike-travel is not encouraged in my are, which is why I don't use my bike since I live in the Borough, although it was my first mean of transport before moving to London. Bike-lanes through the whole borough or bike safe routes (limited car access on certain streets) would be a great improvement.</p>	<p>Thank you for your comment, these fall within the suggested priority transport and highways.
