Dear Sir

Partial Review to the Core Strategy: Basements

I have to catch a very early flight tomorrow and cannot write at length.

I do feel very strongly that the Council needs far greater powers to regulate the digging of basements.

These huge developments/excavations make life intolerable for neighbours due to filth, noise, vibration and heavy construction traffic. Also parking suspensions for months sometimes years.

I support absolutely the Council's proposals to change their policy to:

reduce the scale of basements by limiting them to one storey and no more than 50% of the garden, even less,

regulate more to:

ensure proper drainage,

retain trees,

ensure better control of traffic and parking problems due to the excavation and development,

ensure structural stability,

ensure better control over noise, vibration and dust.

Yours faithfully,

Susan Hunting
