Subject: Basements

Dear Sirs,

I support your wish to change the policy regarding Basement development. Almost every street in the Kensington has one house building below ground. This major work lasts many months disrupting the neighbourhood with dust, vibrations & possible structural problems to adjoining houses, noise, heavy & large vehicles blocking the roads. It is concerning that concreting over gardens on that scale leaves nowhere for the rainwater to disperse & giving rise to future flooding.

Yours faithfully,

Mrs. G. Foley
