Dear Sir

I enclose my response to the proposed change in Planning Policy CL7.

As I have stated, I consider the planning policy to be sound and legally compliant.

I do believe that there could be more emphasis on safety which is of particular importance in relation to this sort of work, particularly with regard to children and the elderly. I would also like to see powers so that the scheduling of these works can be controlled as it is often the proximity of one development to another that can dramatically increase the risk of damaging our society and threatening safety.

Yours faithfully

Andy Rose

Publication Stage Representation Form

To be **“sound”** the contents of a local plan should be POSITIVELY PREPARED, JUSTIFIED, EFFECTIVE and consistent with NATIONAL POLICY.

“Positively prepared” means that the planning policy needs to:

- be prepared based on a strategy which seeks to objectively assess development and infrastructure requirements, including those of neighbouring authorities where it is reasonable to do so.
- It must also be consistent with achieving sustainable development.

“Justified” means that the planning policy must be:

- founded on a proportional evidence base
- the most appropriate strategy has been selected when considered against the reasonable alternatives.

“Effective” means that the planning policy must be:

- deliverable over its period
- based on effective joint working on cross – boundary strategic priorities.

“Consistent with National Policy” means that the planning policy should enable the delivery of sustainable development in accordance with the guidance contained within the National Planning Policy Framework (NPPF).

It must also be **legally compliant** which means that the planning policies have been prepared in accordance with legal and procedural requirements.

Please tick box as appropriate

If you have selected YES and you wish to support the soundness of the planning policy, please give your reasons below. Please be as precise as possible. Please make it clear which paragraph number or Policy box number you are commenting on.

It addresses issues that I am experiencing that have potential to damage the fabric of our local society, the fabric of our buildings & the safety of our residents. I am currently facing possible closure of my NHS general practice as

a result of ~~this~~ a local possible development. I am concerned about the fabric of walls being maintained at another local site and I am particularly concerned about safety of residents when this sort of work is happening. This policy addresses all these issues.
