Resident	146.9	28	7	75.00
Totals	146.9	28	7	75.00

Occupancy based on 'whole 4.9m spaces' available. This percentage is calculated as the number of (theoretical) bays minus the number of 'spaces', divided by the number of (theoretical) bays, multiplied by 100 i.e. (Bays-spaces)/Bays\*100

A bay length of 4.90 metres is used where bays are not demarcated
