**Subject:** Input to Matters and Issues to be discussed at the Examination into the RBKC LDF Core Strategy Statement

Dear Chris,

Under "Diversity of Housing" it is not clear to what extent policy regarding houses in multiple occupation will be discussed. The issues raised by policy CH2d should be a matter for consideration at the examination and in particular the interrelationship between HMO use and listed buildings. We believe the policy should allow for the loss of HMO accommodation where other planning goals are met for example, the restoration of a listed building.

We hope that this matter can be included in the Inspector's issues to be discussed.

Regards

Wendy
